linkedin.com/in/binkaiff | github.com/binkaiff | bin-kaiff-portfolio.vercel.app

PROFESSIONAL PROFILE

Software Engineering undergraduate and full-stack developer experienced in building AI-enabled web applications, REST APIs, business management systems, and responsive websites. Skilled in React, TypeScript, Python, FastAPI, Flask, PostgreSQL, and cloud deployment. Seeking a software engineering or full-stack development internship to contribute to real-world products.

TECHNICAL SKILLS

Languages & Web: Python, JavaScript, TypeScript, Java, HTML5, CSS3

Frontend & Design: React, React Native, Bootstrap, Tailwind CSS, Figma, responsive UI/UX

Backend & Databases: FastAPI, Flask, Node.js, REST APIs, PostgreSQL, MySQL, SQLite, Supabase

AI, Tools & Cloud: Gemini AI, OCR, PDF processing, JSON, Excel automation, openpyxl, Git, GitHub, Agile/Scrum, Vercel, Render, PythonAnywhere

PROFESSIONAL EXPERIENCE

Assistant Director, IT and Web Development

UTA Manpower Service | Kalmunai, Sri Lanka | Jun 2024 - Present

- Built the company website and internal web tools to support recruitment, invoicing, and administrative workflows.
- Created an accounts and candidate operations system for financial records, balance tracking, Excel reporting, and printable invoices.
- Translated business requirements into responsive dashboards and practical interfaces for daily operations.

Freelance Web Developer

Self-Employed | Remote | 2022 - Present

- Delivered 5+ responsive client websites, from Figma prototypes through front-end implementation.
- Managed project timelines and website delivery for individual client engagements.

Web Development Intern

Codveda Technologies | Remote | Feb 2026 - Mar 2026

- Produced 4 responsive layouts using HTML5, CSS3, Flexbox, and CSS Grid, and built a React CRUD task manager.
- Contributed to Agile stand-ups, code reviews, and assigned sprint activities.

Administrative and IT Coordinator

NK Motors | Kalmunai, Sri Lanka | Apr 2023 - Apr 2024

- Launched a responsive dealership website and provided IT maintenance support for 10 workstations.

SELECTED TECHNICAL PROJECTS

Mentora AI - Student Learning Assistant

Tech: React, TypeScript, FastAPI, Supabase, PostgreSQL, Gemini AI

- Built and deployed an AI study platform with PDF/notes chat, smart flashcards, a study planner, step-by-step tutoring, progress tracking, and assignment reminders.
- Integrated Google authentication, REST APIs, and Gemini-powered assistance into a responsive React application.

UTA Business Management System - Accounts & Candidate Operations

Tech: Python, Flask, JavaScript, HTML/CSS, JSON, Excel, PythonAnywhere

- Engineered an internal web application to manage financial transactions, account balances, Excel exports, and candidate invoices.
- Implemented responsive dashboards, user-specific profiles, and printable invoices; deployed the platform on PythonAnywhere.

AI-Based Financial Fraud Detection System

Tech: React, FastAPI, Python, OCR, PostgreSQL

- Created a receipt-processing workflow with OCR, editable transaction extraction, and duplicate detection.
- Added explainable fraud-risk scoring and alerts, with an integrated machine-learning prediction pipeline.

ADDITIONAL PROJECTS

UTA Corporate Website | Responsive recruitment website with a contact form; HTML5, CSS3, JavaScript, Formspree.

Modern Photo Gallery | Responsive image gallery featuring category filters and transitions; HTML5, CSS3, JavaScript.

TaskFlow - To-do App | Task creation, filtering, sorting, and persistent browser storage; HTML5, CSS3, JavaScript.

React Calculator | Reusable components, input validation, and calculation history; React, JavaScript, CSS3.
